

To Whom it Concerns,

I am writing to protest the upcoming airing of "Stolen Honor" by Sinclair Broadcasting. It is obviously not "news"! It is pure and simple propaganda and smacks of state run media. I would expect this in any number of oppressive dictatorships around the world, but not in America. Sinclair does not own the airwaves it is using to promote its' narrow-minded view - the people do. And the people deserve a media that serves the people - not corporate or political interests. This is a direct result of the FCC bowing to corporate interests and allowing them to consolidate power. Now, the media is just a voice for themselves and not the citizens. This is just the beginning of the end of the greatest democracy in the world unless you come to your senses and not just stop the broadcast by Sinclair but, re-regulate the media and return it to its' intended purpose of questioning our leaders - not being their cheerleaders and chief brain washers!
